RE: "An Open Label Single Arm Phase I/II study of MTX110 delivered by convection-enhanced delivery (CED) in patients with diffuse intrinsic pontine glioma (DIPG) previously treated with external beam radiation therapy", PI: Dr. Sabine Mueller, MD, P0524075

Dear Mr. Desserich,

We greatly appreciate your approval of our proposal. In receipt of this grant, we provide the following confirmations:

- Confirmation of the receipt of the grant entitled "An Open Label Single Arm Phase I/II study of MTX110 delivered by convection-enhanced delivery (CED) in patients with diffuse intrinsic pontine glioma (DIPG) previously treated with external beam radiation therapy" in the amount of \$70,000 on September 19, 2017.
- Confirmation that the study/protocol will begin within 6 months of the award date. If review panel approval has not yet been achieved, monies will be withheld by The Cure Starts Now up to 6 months from award date while approval is developed. After 6 months, grant monies may be reallocated by the Medical Advisory Council and this grant approval shall be void.
- IRB approval is pending. We are hoping it will be approved by April 2018. FDA approval, however, should be received soon.
- Confirmation that the results and progress of the funded study will be used in a collaborative manner with other institutions that can further the progress of DIPG research, inclusive of involvement by other participating institutions in the DIPG Collaborative.
- Contact information for the lead researcher to allow a member of our Board of Directors or Medical Advisory Council to contact and/or visit for 6-month progress reports back to the Strategic Advisory Council of The Cure Starts Now:
Dr. Sabine Mueller, MD, PhD, MAS
Associate Professor
Department of Neurology
550 16th. Street, 4thFL
San Francisco, CA 94143-0434
Tel: (415) 502-7301
Fax: (415) 443-3471
Email: Sabine.Mueller@ucsf.edu
- The web link will not be available until the IRB is approved and the study is open for enrollment, which we again estimate will be in approximately 6 months.
- Confirmation that in all future publications, published data, presentations, web pages, blogs or other references to the grant and supporters, The Cure Starts Now

Foundation, The ChadTough Foundation, Cure Starts Now Australia, The Julian Boivin Courage for Cures Foundation, Hope for Caroline Foundation, Lauren's Fight for Cure Foundation, Aidan's Avengers Foundation, Austin Strong Foundation, Brooke Healey Foundation, Cure-Brain Cancer Foundation, Grant's Ginormous Gift Foundation, Michael Mosier Defeat DIPG Foundation, Musella Foundation, Operation Grace White Foundation, Smiles for Sophie Foundation, Jeffrey Thomas Hayden Foundation, Pray Hope Believe Foundation, Ellie DIPG Research Fund, Julia Barbara Foundation, Ryan's Hope Foundation, Benny's World Foundation, Canadian Children's Brain Cancer Foundation, Reflections Of Grace Foundation, American Childhood Cancer Organization, Danni Kemp Cancer Research Fund, Love, Chloe Foundation, Smile for Brooklyn Foundation, The Kira Foundation, Wayland Villars DIPG Foundation, and The DIPG Collaborative are named as sponsors of the protocol.

Please let us know if anything further is requested at this time.

Sincerely,

Dr. Sabine Mueller, MD, PhD, MAS
Associate Professor
