Mr. Keith Desserich
The Cure Starts Now Foundation
10280 Chester Rd.
Cincinnati, OH 45215-1200

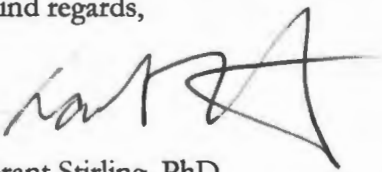

Dear Mr. Desserich,

As the need for pediatric health care grows, Ann & Robert H. Lurie Children's Hospital of Chicago relies on funding from donors like The Cure Starts Now Foundation to provide essential care, support and research to benefit every child. Thank you for awarding Oren Becher, MD a \$35,000 grant, supporting his project: *Credentialing an Improved Mouse Model for DIPG*.

The Cure Starts Now Foundation's commitment to DIPG research is instrumental in allowing Dr. Becher to continue his groundbreaking research into tumor suppression. The opportunity to improve treatments for pediatric brain cancer has never been more within our reach. Thank you for making this possible. If you would like any additional information please contact Kevin Braden, Foundation Giving Officer, at (312) 227-7284 or kbraden@luriechildrens.org.

I am grateful that you have chosen to join us help change the future for every child.

Kind regards,

Thank you!

Grant Stirling, PhD
Executive Vice President & Chief Development Officer
